

EIBIR / QIBA ASL Biomarker Committee Meeting

Thursday, June 30, 2022, at 10 a.m. CT

Meeting Summary

Lino Becerra, PhD	Xavier Golay, PhD	Hanzhang Lu, PhD	Aaron Oliver-Taylor, PhD
John Detre, MD	Peter Gordebeke, MS	Karl-Olof Lovblad, MD	Susan Stanfa, MLIS
Klaus Eickel, PhD	Mai-Lan Ho, MD	Nancy Obuchowski, PhD	Ona Wu, PhD

Moderator: Dr. Golay

- There was a call for Co-chairs; Karl-Olof Lovblad, MD may volunteer?
- Discussion on addressing “Profile-writing fatigue,” and how to make progress at a steady pace
- Determined that a more systematic approach is needed, e.g., focus meeting discussion on one aspect of the Profile at a time and solicit volunteers for post-meeting Profile-writing
- Additional education on the QIBA Process was provided by experienced QIBA members
 - Profile Claims are based on data gleaned from a literature review, help with actor specifications
 - Writing a Claim, e.g., what is being measured, what is the bias and precision
 - Staff recommended contacting Dr. Boss with any questions on how to move forward
- Dr. Golay’s students to conduct a systematic literature review and prepare a document by the end of 2022; longitudinal and cross-sectional Claims will be based upon the collected data
- Those interested in working on Profile-writing should contact Dr. Golay
