Feroze Mohamed, PhD
Jay Pillai, MD
James Reuss, PhD

Laura Rigolo, MS
Daniel Sullivan, MD
James Voyvodic, PhD
Domenico Zaca, PhD

RSNA
Joe Koudelik

QIBA fMRI/DICOM 16 Working Group (Dr James Reuss)

- Jim to take lead on communication
- Updates on upcoming meetings/opportunities to collaborate or coordinate efforts

NIBIB Round 2 Submission (New Submission Discussion)

- Results of Round-2 review

QIBA Annual Meeting; Tuesday-Wednesday (5/24-5/25)

- Review of meeting – summary of presentation
- Progress on plans for coming year and timeline of activities
- Profile development (writing group - Drs Mohamed and Elsinger) – draft 1 complete by September 1, 2011

Workflow Document

- Status
- Review of items/edits
- Formalize document for circulation to other contacts
- Use this document to begin Profile writing on draft 1 of Profile

Next Steps

- Mr Buckler to forward the draft VolCT Profile to Dr Elsinger for formatting/ content reference; Dr Elsinger to review and circulate among the fMRI Tech Ctte for feedback
- Dr Mohamed agreed to assist Dr Elsinger with the fMRI Profile development; all ctte members invited to take part in the writing effort
- Smaller in-person working meeting proposed in 6-months time to review the fMRI Profile draft
- Workflow document to be completed by core fMRI ctte members, then circulated to a broader audience of content experts for additional feedback
 - Caution not to distribute commercial product information; removing vendor detail suggested
 - Analysis of workflow consensus is next
 - Dr Voyvodic to update the Duke workflow on most current spreadsheet
 - Broader 'reach-out' to vendors needed; DICOM Work Groups and recent vendor 'Roadshow' visits may provide additional contacts
 - Mr Buckler to send contact details from vender Roadshow to Dr Elsinger
 - Dr Elsinger to reach-out to GE contact for participation

Next reproducibility call scheduled for Tuesday, June 7th, at 11 am CDT

Next Tech Ctte update call scheduled for Wednesday, June 15th, at 11 am CDT
