

QIBA COPD/Asthma Technical Committee (TC)

March 27, 2013 at 2 PM CT

Call Summary

In attendance

Philip F. Judy, PhD (Chair)

Paul Carson, PhD

Heather Chen-Mayer, PhD

Barbara Croft, PhD

Bernice Hoppel, PhD

Ella Kazerooni, MD

Joshua Levy

David Lynch, MB

Daniel Sullivan, MD

Eva van Rikxoort, PhD

RSNA

Julie Lisiecki

Agenda COPD/Asthma Technical Committee

3/27/2013

1. Experience with image data warehouse
2. Possible image data upload into warehouse
 - a) Tube potential effect
 - b) Tube current experiments
 - c) Centering of phantom
3. Recycled posters for QIBA Annual Meeting
4. Specification of acquisition parameters

Discussion topics:

1. Experience with image data warehouse

- Mr. Connell and Dr. van Rikxoort confirmed successful data uploads to the image data warehouse
- Dr. Fain has expressed interest in facilitating the image warehouse activity.

4. Specification of acquisition parameters

- Dr. Judy indicated that stronger wording is needed in the 3/13 summary regarding contrast, i.e., "The use of contrast is prohibited."
- Specific written breathing instructions are to be included in the Profile.
 - More information is needed regarding timing, e.g., "the 10-second breath hold"
 - Using a **range** for the breath hold measurements was suggested with possible "target," "acceptable," and "ideal" levels
 - More discussion is needed regarding measurement range
 - All items within the performance specifications table are linked with reconstruction parameters and how to calibrate them
 - The dose cannot be too high or too low

Other considerations:

- More discussion needed regarding emphysema measures and the down-side of specifying the data collection diameter, or Field of View

Action items:

- Dr. Judy to follow up with Dr. Fain regarding current modulation data
- Dr. Judy to update technical specifications based on 3/27 discussion.
- Group to identify critical performance specifications; input welcome: philipfjudy@philipfjudy.com.
 - For next call: Focus on emphysema measures and reconstruction issues

Next call: QIBA COPD/Asthma Update Call, **Wednesday, 2 pm CT, April 10, 2013**
