

## QIBA fMRI Reproducibility Work Group Call

Thursday, November 1, 2012 at 10 AM CT

Call Summary

Participants		RSNA
<b>James Voyvodic, PhD (Chair)</b>		Joe Koudelik
Harris Ahmad, MD	Cathy Elsinger, PhD	Julie Lisiecki
Barbara Croft, PhD	Erich Huang, PhD	
Ted DeYoe, PhD	Daniel C. Sullivan, MD	

### Discussion

- Profile wordsmithing continued with focus on identifying and mitigating possible sources of variance (SOVs)
- Most SOVs will require scrutiny to determine how much variance is acceptable in the Profile.
- SOV must be related to the protocol in terms of how to standardize and optimize procedures to get best results.
- Relating the image acquisition protocol to the Profile remains a challenge.

**Change in Time slot for calls:** 10 am CT on Tuesdays, alternate week after the Technical Committee call

### Next steps

- Group to discuss areas of focus for next year's projects

### Next calls:
