

QIBA fMRI Bias Task Force Call
Tuesday, February 3, 2015 at 10 AM CT
Draft Call Summary

Participants

James Voyvodic, PhD (Chair)

Ted DeYoe, PhD

Cathy Elsinger, PhD

Jedidiah (Jed) Mathis

Nancy Obuchowski, PhD

David Soltysik, PhD

Daniel Sullivan, MD

Yuxiang Zhao, PhD

RSNA

Joe Koudelik

Julie Lisiecki

fMRI Profile claim language discussed

- Performance specification criteria/details must not be too broad, must only be relevant to the claim language
- Limited experience drafting performance parameters required to feed the claim is expected until the DRO study is completed; “parameters-of-intent” still need discussion
- Performance specification tables like those in CT, MR and PET Profiles will prove difficult due to limited supporting literature and groundwork to-date

Next calls:

- QIBA fMRI Biomarker Committee, *Wednesday, February 11, 2015 at 11am (CT)*
- QIBA fMRI Bias Task Force, *Tuesday, February 17, 2015 at 10am (CT)*
