Rathan Subramaniam, MD  RSNA
Joe Koudelik

Discussion Topics:
• QIBA Profile format and section details
• Claim language and calculating SUVmax used as a general example
• Input data, measurement data and methods to be defined
• Small work groups proposed to write specific Profile sections for review/comment by entire Tech Ctte
• Volunteers for specific sections proposed
  o QA/QC = Drs Yap, Clunie and Zimmerman
  o Covariates = Drs Yap, Clunie and Zimmerman
  o Software Version Tracking = Dr Shao
  o SUV Computation = Drs Boellaard, Kinahan, Perlman, Wahl, Cole and Subramaniam
  o ROI = Drs Boellaard, Kinahan, Perlman, Wahl and Subramaniam

Next steps:
• Mr Buckler to format various section text into Profile template
• Specific sections of Profile need expert input; feedback welcome
• Mr Buckler to circulate Profile template for reference
• All reference documents to be WIKI posted
• RSNA staff to begin coordinating small work group calls
• Dr Boellaard to draft agenda items for next three FDG-PET Profile Authoring Sessions for reference
