Adele Peskin, PhD

Nicholas Petrick, PhD

Uri Shreter, PhD

Daniel Sullivan, MD

Ying Tang, PhD

Luduan Zhang, PhE

RSNA:

Joe Koudelik

Madeleine McCoy

Round 4 Project Proposal Updates

- Dr. Goldmacher announced that the Dr. Jordan's animal model proposal has been withdrawn due to staff changes at Case Western.
- Project PIs to address Steering Ctte comments and submit revised proposals to RSNA by May 12th for continued review by the Steering Ctte on May 15th and 20th.

Profile Discussion

- Compliance/ Certification section has been split into 3 groups:
 - 1) Patient prep
 - 2) Image acquisition and reconstruction
 - 3) Image analysis
- The image analysis group benefitted from 3A Challenge member engagement
 - The current version of the Profile has an underdeveloped understanding of image analysis software
 - There is a strong relationship of the image analysis to the claim which needs to be developed
- The clinical context of non-measurable versus small lesions size was discussed
- Discussions to continue at next week's F2F at the QIBA Annual Meeting
