General Discussion Items

- Protocol vs Profile Distinction; simple descriptions need posting on Wiki for reference
- Protocols (clinical trialists)
- Profiles (industry use)
  - Profile for Advanced Lung Disease in field testing
  - Profile development continues for Small Pulmonary Nodules
  - The scope of this Profile is “whole body” meaning everything but the brain
  - Profile format discussed
    - Design
    - Problem statement
    - Description of what needs to be done
    - “Shall” and “Should” language discussed
- Line-by-line review of Profiles needed on future calls
- Diff files discussed
- Bulls-eye approach to performance levels discussed

Next Steps:

- Simple descriptions of Protocols and Profile to be posted to the Wiki
- Mr Buckler to circulate Profile documents and diff file for discussion and feedback
