Pivotal Study Update

- Five datasets out of 11 have been submitted
- Data submission deadline was extended by one week to **July 12th, 2012**, on a case-by-case basis
- RSNA Staff to follow up with individual participants to determine when their data will be ready
 - Data- download or software issues to be reported to RSNA staff, who will solicit technical support from NIST

Manuscript Update

- Draft manuscript reviewed with text incorporated from section authors
- Dr. Athellogou to send draft copy for review to section authors
- A final draft of the manuscript currently targeted for the end of July

Next steps:

- Dr. Athellogou to send draft copy of manuscript to section authors for review/feedback
- RSNA Staff to follow up with individual participants to determine when their data will be ready for submission
- RSNA Staff to send reminder email to pilot participants for feedback regarding their individual results; comments to be sent to RSNA staff by July 15th, please.

Next call: *Thursday, July 12, 2012 at 11:30 AM CT.*
