- A hard copy of the technical committee poster is **due to RSNA by November 1<sup>st</sup>**.

**Profile update**

- Claim language and Profile edits discussed in preparation for Public Comment Phase
- UPICT protocol is in-progress and should be completed soon
- Coefficient of variation (CV) results from the ACRIN 6678 Test/Retest are in line with the Profile claim.
- Dr. Perlman will incorporate a description of an “evaluable tumor”
- “Motivation” behind Profile development has been incorporated into the Profile.
- A general statement that could be applicable for all QIBA Profiles demonstrating the relationship between Profile and Protocol was suggested by Drs. Perlman and MacDonald
  - Mr. Buckler to follow up on wording for this QIBA statement
  - A helpful figure was added to show the relationship between the two documents
- Tech Ctte would like to have the FDG-PET Profile ready for the Public Comment phase by mid-October

**Next steps:**

- Approach to addressing Public Comment needs further discussion.
- Group was asked to read through Section 3 (Profile Details) and provide feedback to Dr. Kinahan prior to the next call.
