Agenda 9/24/2014: Lung Density Technical Committee

- 1. RSNA Meeting Poster plans
- 2. Finalize Precision Claim for Perc15 and Volume Correction
 - Incorporate into draft profile
 - Bias?

Andrew Buckler, MS

- Fraction less than -950 HU?
- 3. Status of AEC and IR Project
- 4. Acquisition and reconstruction specifications
 - Report from Vendor Working Group
 - CT Number bias requirement given claims
- 5. Plan to analysis sections of Profile

Discussion:

- Dr. Fain agreed to coordinate a poster for RSNA 2014 that focuses on Profile development for both airway and lung density measurements, with input from the group
 - Research from Drs. Chen-Mayer, Fain, Obuchowski, and Rodriguez to be included
 - o A background panel (text) re airways, the clinical beginnings of COPD, emphysema, etc. to be included
 - Poster topics to contain: Metrology analysis, Claim language, approached to CT volume correction and airway measurement
 - o Previous posters are available for reference on the QIBA wiki
 - Print-ready PPT posters are due to RSNA by October 31st if RSNA is to print the poster
- Continued group discussion regarding proposed revisions to claim language based on the investigation of volume correction issues by Drs. Chen-Mayer and Fain and applicability to clinical usefulness
 - o Work ongoing to distill statistically meaningful mean and confidence intervals
- Drs. Fuld and Hoppel are working in parallel with vendor partners to determine what bearing these measurements might have for scanner acquisition protocols

Action items:

Dr. Fain to head up the poster effort for the technical committee; draft due to RSNA by October 31st
