Please note: Due to a WebEx service outage, meeting attendee names may not have been captured. Please contact RSNA staff if you attended this call but your name is not listed. Thank you.

Moderator: Dr. Wollenweber

Discussion Topics included:

Round 6 Projects

- All Nuclear Medicine CC voting members were reminded to rank QIBA Round – 6 proposals using the link circulated by RSNA staff.
- Additional sources of project funding were discussed, such as NCI, but it was unclear how they could help

Profile Updates

- Sections 3 and 4 were discussed
- How the CT Volumetry BC analyzed data for meeting their claims and proving conformance was introduced as an example for consideration
 - PET/ CT alignment within + 2 normatives is the current goal of an ideal range for mechanical tolerances
- Significant progress has been made, impacting the FDG-PET imaging community; however, the work is not yet complete
