RSNA Annual Meeting Updates

- PDF poster (Dr. Rosen)
 - The latest draft of this poster was discussed
 - A volunteer/leader was identified from each task force to submit poster content
 - Dr. Chung shared the information contributed by the DCE TF with the group
 - Dr. Rosen will contact Drs. Erickson (DSC), Schneider (DTI), and Boss (DWI) to request content
 - It was recommended that content be succinct and that there be images or white space to break up the text
 - Overviews of the two round 4 and two round 5 projects will be included
 - Dr. Rosen to develop handout noting PDF-MRI BC and TF co-chairs, to be made available at the meeting
 - Dr. Rosen to draft poster and provide an update on the next PDF BC call on Oct 14th
- DRO poster (cross-modality focus)
 - Will contain a comprehensive overview of QIBA DROs
 - Dr. Boss will approach PIs of all QIBA DRO projects for input The group was reminded that the deadline for a print-ready PPT poster to RSNA staff is October 30
 - Dr. Boss volunteered to print and transport the poster if it is completed after the 10/30 deadline
- QIBA Meeting Times at RSNA 2015
 - QIBA Working Meeting information was noted:
 - QIBA Working Meeting: 2:30 PM – 5 PM
 - Plenary Session: 2:30 – 3
 - Breakout Group Sessions: 3 – 5

 - Google Sign-up Sheet went out on Monday, 9/28

Round 5 Funding Update (Dr. Jackson)

- RSNA staff was notified on 9/30 that the NIBIB contract for the QIBA round 5 projects was awarded to RSNA

Vendor Task Force Proposal to MR CC (Dr. Kirsch)

- A need has been identified for vendor representatives in the Profile-writing process to assist in developing protocols
Possible members of this group would include:
 - Siemens (John Kirsch)
 - GE (Jacob Fluckiger)
 - Philips (Harsh Agarwal)
 - Other vendors? Dr. Kirsch to reach out to engage additional vendor reps
- Goals:
 - Short-term: protocol development, optimizations, standardization of sequence and protocol methodology for profiles
 - Long-term: system requirements/specifications aligned with profiles and conformance, develop tools for characterizing vendors' scanners
- If a vendor-based task force is proven to be a valuable addition to the PDF-MRI BC, then the possibility of expanding across modalities will be considered
- The challenge in a cross-modality group would be in attending the additional number of QIBA calls
- Different models of this task force will be discussed and the decision on whether this will be an MR task force or cross-modality will be made at the CC level
- The MRE BC is unique in that it was developed in association with vendors
- Other vendor representatives were asked to contact Dr. Kirsch if they were interested in being a member of the Vendor Task Force
 - Dr. Boss recommended a Toshiba representative and offered to contact him
 - Dr. Kirsch will contact Dr. Ehman, Co-Chair of the MRE BC

Task Force Updates

- Poster content to be gathered and submitted for the PDF-MRI poster within the next couple of weeks

Next PDF-MRI Biomarker Committee Call: October 14 at 11 AM CT [Dr. Boss to moderate]
