**fMRI Poster at RSNA 2014** (Dr. Pillai)

- Modest traffic during the noon-time poster sessions
- No specific comments/questions received

**fMRI Breakout Session on Dec 3<sup>rd</sup>** (Dr. Elsinger)

- Session focus was on the Profile; Dr. Elsinger moderated the discussion and edited the document
- Dr. Elsinger to integrate session comments and circulate the latest Profile version for broader committee review/feedback

**DRO Project Update** (Dr. Voyvodic)

- fMRI DRO image overlays from the post-processing data reviewed
- Dr. Voyvodic to reassess image registration issues and AMPLE signal normalization
- Spatial Extent deemed not as critical as centroid location for motor cortex; bias and precision of centroid location related to motor cortex to be pursued; Spatial extent needs more discussion
- Dr. Voyvodic to gather data in a common usable format, such as DICOM or NIFTI
