

Date of Conference Call	Lung density metric WG Topics	
2/27/2013	Identify metrics of interest	Scope of profile - Just lung density (emphysema and air trapping ?), other applications, primary audience
3/13/2013	Identify critical technical specification	Link criticality of specification to metrics and their use (case selection, predict outcome, evaluate progression)
3/27/2013	Decide on acquisition specifications	Possible critical specifications: Total collimation, scan speed, radiation dose
4/10/2013	Decide on reconstruction specifications	Possible critical specifications: Spatial resolution (slice thickness and in-plane resolution}
4/24/2013	CT number/threshold	How to validate
5/8/2013	Discuss analysis programs	Consider the need for reference cases in image database
5/13/2013 -5/15/2013	QIBA Annual Meeting	
5/17/2013 - 5/21/2013	ATS Meeting	CBQC Working Group likely to meet
5/22/2013	Plan Summer activities	
6/5/2013	Assign and confirm writing task	Content of informative sections
6/19/2013	Revisit claims	Require bias and precision
7/3/2013	Review draft of profile	
7/17/2013 - 7/20/2013	Lung Function Workshop	Face to face meeting to review profile status
NEXT CALLS (updated as of 7/24/2013):		
8/14/2013		
8/28/2013		
9/11/2013		
9/25/2013	Approve draft profile	
10/09/2013		
10/23/2013
