

QIBA FDG-PET Biomarker Committee (BC) Call

02 September 2016 at 9 AM CT (GMT-6)

Draft Call Summary

In attendance:			RSNA
<i>Rathan Subramaniam, MD, PhD, MPH (co-chair)</i>	Paul Kinahan, PhD	Uma Ranjan, MSc, PhD	Joe Koudelik
<i>John Sunderland, PhD (co-chair)</i>	Jeff Kolthammer, PhD	Anne Smith, PhD	Julie Lisiecki
<i>Scott Wollenweber, PhD (co-chair)</i>	Nancy Obuchowski, PhD	Na Sun, PhD	
Howard Higley, PhD	Eric Perlman, MD	Jeffrey Yap, PhD	
John Hoffman, MD			

Moderator: Dr. Wollenweber

Discussion Topics included:

Design of QIBA Kiosk Poster for RSNA 2016

- Dr. Wollenweber reminded the BC members that RSNA 2016 posters will be **due October 31st**.
 - Any project updates or new content must be ready before then for inclusion in a QIBA NM poster
- Previous posters are on the QIBA wiki on the Education tab: <http://qibawiki.rsna.org/index.php/Education>
- Design ideas were discussed regarding reallocating the space previously used for general QIBA information for specific FDG-PET project related updates instead
 - Three questions to bear in mind for the updates include:
 - Why is this important?
 - How are we accomplishing our goals?
 - What results did we find based on our research?
- A 'Process Committee poster was suggested to provide a general overview of QIBA work products, e.g., Profiles/Claims and their intended use
 - An explanation of the evolution of what each of the biomarker committees are working toward, especially with regard to conformance, would be helpful
 - A "Toward Conformance" panel, with the heading, "Grounded in Practicality," was suggested
 - Dr. Perlman will follow up on this idea with Mr. O'Donnell and Dr. Sullivan, co-chairs of the Process Committee

Profile Checklist Update and NBDA effort

- The final version of the checklist will be included as an Appendix for the Profile
- Dr. Perlman recently revised the checklist and sent it for review/feedback to the **National Biomarker Development Alliance (NBDA)**
- Consensus is needed on the final version prior to wider distribution
- The NBDA is an alliance also, and it is hoped that they will champion the product that QIBA has developed and help QIBA to bring quantitation and quantitative biomarkers to the larger community

<p>September BCs: Sept 09: Amyloid BC Sept 16: SPECT BC Sept 23: Combined NM BCs or Leadership - TBD</p>	<p>SPECT Task Forces: (Tuesdays at 2 pm CT) – Sept 13: Quantitative / Image Analysis – Drs. Miyaoka & Seibyl Sept 20: DRAFT Claim Sept 27: FINALIZE Claim</p>
<p>October BCs: Oct 07: FDG-PET BC Oct 14: Amyloid BC Oct 21: SPECT BC Oct 28: NM CC @ 9:00 am CT (Friday)</p>	<p>SPECT Task Forces: (Tuesdays at 2 pm CT) – Oct 04: Image Acquisition / Processing for DaTscan, Dr. Dewaraja Oct 11: Quantitative / Image Analysis, Drs. Miyaoka and Seibyl Oct 18: Phantoms / DRO Group, Drs. Dickson and Zimmerman</p>
