### Discussion Topics

- Dr. Mulshine discussed rationale behind bucketing Profile sections in this early drafting phase
- Profile section development to proceed in parallel to maintain momentum
- Profile section content experts being identified via Doodle poll
- Mr. Buckler provided high-level overview of the various Profile sections
- Intended audience of Profile needs to be identified as well as Profile Actors
- Informative vs. Normative focus of the Profile compared

### Next steps

- Group members are encouraged to review the Profile and self-select specific sections to develop at <http://www.doodle.com/iww2uw3uwq9fectz>
- RSNA Staff to post the current Profile version and the CT Volumetry Advanced Disease Profile for reference at [http://qibawiki.rsna.org/index.php?title=CT\\_Volumetry\\_tech\\_ctte](http://qibawiki.rsna.org/index.php?title=CT_Volumetry_tech_ctte) (completed)
- Next call scheduled for Friday, March 8<sup>th</sup> at 10 AM (CST)
