

QIBA CT Angiography Biomarker Committee (BC) Call
07 October 2019 at 11 AM CT
Call Summary

In Attendance

Andrew Buckler, MS (Co-Chair)

James Kevin DeMarco, MD

Taylor Richards, PhD

RSNA Staff

Joe Koudelik

Julie Lisiecki

Moderator: Andrew Buckler, MS

New procedure for Public Comment resolution discussed:

- There are only about 15% of the 225 public comment issues remaining for resolution
- An Excel attachment was provided to separate out the 34 remaining issues onto a “To Do:” tab so they can be viewed more easily
- Mr. Buckler also provided the PDF from AAPM, which contains the majority of remaining issues
- Because medical expertise is needed to resolve these issues, a Doodle Poll will be used to find an accommodating time for discussion for the subject matter experts (SMEs) identified by Mr. Buckler

Public Comment responses:

- Addressing all comments as a BC will help to advance the Profile to the next [Profile Stage](#) of Consensus
- Updates can be found posted to the CTA BC’s working page on the wiki, including the latest version of the Profile (PDF) and the Excel spreadsheet containing comments:
http://qibawiki.rsna.org/index.php/CT_Angiography_Biomarker_Ctte

Action items:

- Dr. Ramirez Giraldo has agreed to propose wording for temporal resolution
 - Add to the discussion what we mean by “effective” temporal revolution time, and how it relates to the DICOM tag value
- Dr. Richards agreed to propose text and a threshold value for a pragmatic approach on a patient-by-patient basis to aid the technician
- Help will be needed on upcoming WebEx calls to address the remaining public comment feedback

Next call: TBD via [doodle poll](#) for Subject Matter Experts (SMEs).
