QI/IB 3A Bench will have an in-person meeting with 6 NIST Presenters on Tuesday, November 15, 2011 any questions about this meeting should be directed to Mr. Alden Dima.

QIBA Vol-CT AdvDisease v2 Public Comment Profile Feedback

- Mr. O'Donnell led a discussion which resulted in the closure of comment #56
 - Dr. McNitt-Gray worked on the numbers to confirm the Profile Claim is mathematically sound (ie, 4cm/sec scan rate is appropriate)
- Dr. Mozley to look for papers outside of the lung; Dr. Schwartz may also be able to provide references; Mr. Buckler and Dr. Tang will provide material from the briefing document. There may need to be a paragraph describing the differences and extrapolation of findings involved
- Public comment #3 Drs. Schwartz and Mozley will devise and submit a paragraph to describe metastatic solid tumors and submit for group review

Next steps:

- A copy of the profile to be posted on the WIKI indicating the notes (content submitters) from Mr. O'Donnell on the right-hand-side
- Next call: November 21, 2011 at 11am (CST),
- RSNA 2011 ANNUAL MEETING ACTIVITIES-Chicago, McCormick Place
 - Special Interest Session - *Quantitative Imaging Biomarkers for Clinical Care and Research*
Monday, November 28th, 4:30pm – 6:00pm, Room: E451A
 - QIBA Technical Committees Working Meeting
Wednesday, November 30th, 3:00pm – 5:00pm, Room: N136
 - Please respond with your availability for the MTE sessions at RSNA 2011
