General Discussion

Multiple QIBA MR Breakout Groups at RSNA 2014 (December 3, Plenary Session 2:30-3:30, Breakouts 3:30-5:00PM)

- Since member overlap exists between the DCE and DWI groups, these will function as a single breakout session
- Depending on the overall attendance numbers, it was noted that breaking into smaller MR groups may dilute the effectiveness of the f2f breakout sessions
- RSNA staff to follow up with leaders from the different writing groups to discern needs
- Additional planning among writing group leaders and co-chairs to occur off-line in preparation for the meeting

Update from Dr. Chenevert

- Software and instructions have been uploaded to the QIDW as a zip file
- Software beta-testing is taking place with partner sites; additional testing/feedback welcome
- New discoveries occur with each test, prompting subsequent revisions to the software, e.g., to address DICOM issues, etc.
- A more robust version of the software, with an embedded tutorial, is expected soon

QIBA Poster Meet-the-Expert (MTE) Session at RSNA 2014 Reminder
