Madeleine McCoy

Discussion Topics

- The title of the group was confirmed:
 - QIBA Lung Nodule Assessment in CT Screening Writing Group
- The draft mission statement was discussed as follows:
 - Foster adoption of pragmatic standards for reproducible CT scan acquisition for nodule characterization and quantitation of biologically meaningful longitudinal volume changes and defined range of variance across vendor platforms.
- Mr. Buckler to incorporate the Profile changes from Drs. Gierada and Mulshine into one document which will be circulated and WIKI posted. http://qibawiki.rsna.org/index.php?title=CT_Volumetry_tech_ctte
- Goals for the next call include:
 - All members to review the merged Profile and offer feedback in relation to the mission statement on the next t-con.
 - Dr. McNitt-Gray was volunteered to lead the next t-con due to his previous work on the advanced stage profile.
 - Dr. McNitt-Gray suggested beginning with the claim language to establish a foundation for the Profile.
 - Dr. Armato would like the group to look at Section 3: Profile Details and to specifically focus on 3.1 and 3.2.

Next steps

- Next call scheduled for: Friday, Jan 11th at 10 AM CT
