QIBA fMRI Biomarker Committee Call Summary
Wednesday, January 13, 2016 at 11 AM CST
Call Summary

In attendance			RSNA
Edgar DeYoe, PhD (Co-Chair)	Jay Pillai, MD	Zhiyue (Jerry) Wang	Joe Koudelik
James Reuss, PhD (Co-Chair)	Haris Sair, MD	Kirk Welker, MD	Susan Weinmann
Andrew Kalnin, MD	David Soltysik, PhD	Yuxiang Zhou, PhD, DABR	
Feroze Mohamed, PhD	James Voyvodic, PhD		

Moderator: Dr. Reuss

Review of Previous Call Summary

The December 16 call summary was approved as written

Profile 1.0 status post-RSNA (Dr. Mohamed, et al.) – MEETING FOCUS

- Dr. Elsinger is reformatting the Profile using the revised Profile Template; this will help standardize Profile formats across all QIBA committees
- Dr. Elsinger to forward the Profile to Dr. DeYoe for additional content regarding the DRO results
- Table 3.6.2 needs data from fMRI Bias TF members
- Subject Motion is the greatest challenge for the fMRI groups to complete; imaging guidelines needed
- Clear QA metrics still needed to help Profile users predict whether claim(s) will be met (i.e., prove conformance to claim language)
- Performance criteria needed to associate with "Shall" and "Should" language
- Analysis algorithms to be addressed within the Profile, e.g., motion-correction algos
- Drs. Elsinger, DeYoe and Mohamed to make all updates to Profile version and distribute to group

Dashboard request

- Will be used to easily track progress of QIBA groups
- Helps groups to set goals and deadlines
- Medium for reporting information to CCs & SC
- fMRI BC members discussed and populated some fields in this document

Review Dr. Soltysik's DRO noise simulation results (12/23/15 email)

- To be discussed on next week's fMRI Bias TF call

Next calls:
- QIBA fMRI Bias TF call - Tuesday, January 19 at 10am CST
- QIBA fMRI Biomarker Committee call - Wednesday, February 10 at 11am CST
