RSNA 2017 Annual Meeting Posters

- Staff sent out poster focus, format guidelines, and options for printing and installation to QIBA BC Co-Chairs following the 8/17 QIBA SC meeting
- General information to include activities over the past year related to:
 - Organizational structure updates (any new Task Forces or biomarkers being considered)
 - Profile development status
 - Profile impact / implications for clinical trials and patient care
 - Conformance procedure update (if applicable)
 - Groundwork project status / results (optional)
- Dr. Boss shared the 2016 poster to be used as a template for this year and proposed some modifications
 - 2016 poster was deemed text-heavy; 2017 poster to use more graphics
 - Summary & goals section to be retained; boilerplate language to be updated for this year
 - Organizational updates for each of five TFs to be included with a slightly larger section dedicated to the new ASL TF for a Profile and checklist development update
 - TF leaders were encouraged to provide an outline of content & graphics to BC leaders by mid-October so that poster framework can be formed
 - DCE TF to include a summary of literature search results and an update on Dr. Nayak's Round-6 groundwork project
 - DTI TF to submit text noting Profile claim language
 - DWI TF to include information regarding Profile status, specifically the process of addressing public comments received
 - Suggestion made to arrange organizational section as flow chart with minimal text
- After receiving TF updates, Dr. Boss will refine the poster and share it with PDF-MRI BC members on upcoming October t-cons
 - Those with groundwork projects to provide graphs, figures, descriptive text
 - Publications and/or presentations related to projects may also be submitted

- Poster content expected to be collected by mid-October with poster draft review by October 25th, and submission to RSNA staff for printing no later than October 31.
