

## QIBA PROFILE CLAIM TEMPLATE (rev 10-MARCH-2015)

### CROSS-SECTIONAL CLAIM:

There is a 95% probability that the measured < *insert QIB name here* >  $\pm$  < *insert precision value here* > encompasses the true value.

For example,

*“There is a 95% probability that the measured  $SUV_{max} \pm 15\%$  encompasses the true  $SUV_{max}$ .”*

### LONGITUDINAL CLAIM:

There is a 95% probability that the measured change in < *insert QIB name here* >  $\pm$  < *insert precision value here* > encompasses the true change.

For example,

*“There is a 95% probability that the measured change in mass volume  $\pm 30\%$  encompasses the true change in mass volume.”*
